

Nursing pads

Breast-feeding mothers regularly leak milk, even when they are not feeding. It can be embarrassing if you suddenly discover damp patches on your clothes. Mammae nursing pads offer the solution.

The ultra-absorbent cotton pad has a waterproof inner layer to ensure both bra and clothing remain dry.

They can be washed at 60°C, so that any bacteria are destroyed. Always wear your Mammae bra with nursing pads to protect your nipples and to promote good breast health.

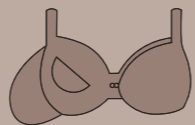

Luxurious shapewear

**Luxurious shapewear
for a flatter belly**

The high waistline flattens the tummy and shapes the bottom. Available in size 38-46.

The award winning
breastfeeding bra

Nursing discreetly

Mammae is the only feeding bra that was designed to preserve your modesty and to nurse your baby discreetly. With access from the centre front, you'll feel comfortable and at ease wherever you are and whoever you're with.

Revolutionary opening

In terms of breast exposure whilst feeding, the choice is yours - opt for a minimal opening for discreet feeding or wide for maximum skin contact with your baby.

Mammae Plus keeps your breasts fully supported

Ultimate comfort

The Mammae Plus has been specially developed for larger cups from E75 to H95 for ultimate comfort.

The underwired inner bra with powernet lining gives all round breast support

- Natural lift and shaping
- Smooth and seamless silhouette
- Gravity has less effect, minimising the appearance of (painful) bra lines

Your breasts are fully supported during nursing

Better nipple protection

Mammae Plus is the perfect solution for heavier busted nursing mums. Mammae ensures the nipple is more easily accessible so baby can quickly and effortlessly latch onto the breast

Mammae Plus makes mummy's prettier

Mammae for the perfect shape

The moulded outer cup conceals nipples and breast pads. Mammae Plus is designed to offer both maximum, practical support and improved body shape.

Something for everyone
